

## Internet Websites

1. [www.hoodamath.com](http://www.hoodamath.com)
  - a. This sight has free math games and tutorials. The games are sorted by subject and we have been using the addition games, particularly the skater, kitten, tug-of-war, jet-ski, and alien games
2. [www.abcyz.com](http://www.abcyz.com)
  - a. This site is sorted by grade level and then into letter, number, more and holiday games. We use the letter and number games at school
3. [www.raz-kids.com](http://www.raz-kids.com)
  - a. This site has students listen to stories and answer questions about the stories. The students can go to the bookroom to change level of difficulty. Contact your teacher for the log-in
4. [www.spellingcity.com](http://www.spellingcity.com)
  - a. This has our spelling lists for the whole year. I have the list number posted at school, I will include the number on the weekly newsletter. On the website they can take practice spelling tests and play games such as hangmen and missing letters. When you get to the sight, go to the **find a list** tab and type in Nina Mitchell.
5. <http://treasures.macmillanmh.com/illinois/students>
  - a. This has different activities that go along with our reading story for the week. There is a typing game, vocabulary and spelling games.
